Heard 'Round The Shampoo Bowl

1. Have you always wanted to try Hair Extensions and wanted to learn more about it before going through with it? Hair Extension Services are now available at Glendale Salonspa with our experienced and extensively trained stylist, Heather. This month's newsletter provides you with the information you need to know to bring you closer to having long, luscious locks..
2. Men are getting their own night in September to take over the salon and experience Aveda Men...
3. We are proud to announce a new addition to our team: Stefanie Corbett. Please see our newsletter for new introductory specials offered by our new esthetician. Come in and experience her magic!
4. Have you heard? Guests can now sign-up on our website exclusive rates and events are only available!

Stylists traveling to China.. Two of our master stylists, Renee and Barbara, are pursuing education and knowledge in the Far East. From October 15th thru October 30th, these ladies will be out of the salon and into Chinese culture. In an effort to accommodate all of our valued guests we are suggesting you to visit our reception desk to **Pre-Book** your future appointments throughout the end of the year.

MEN'S LINE AND EVENT:

Glendale Salonspa's mission includes the focus and consistent attendance of advanced education. While Renee educates her staff and others within the Aveda network, we also attend Aveda courses planned for advancement.

Tamera, Ani, and Renee have all participated in instructional courses on creating a style for today's man. The ladies of Glendale Salonspa have been diligently participating in men's design-tech advanced courses focused on creating shape and specialized cuts for our male guests.

These skills are being combined with seven new exciting products from Aveda made especially for men.

After one month of use.....

New web changes for Glendale Salonspa:

Guests can now sign-up on our website for special offers. Be sure to navigate to our main page or to our newsletter page *for more info.*

HAIR EXTENSIONS! Ladies wait no more for those long luscious locks! Our locks are made only with the best hair already selected, free of any superficial cuticle, combed in the same direction as the hair growth, bleached and dyed following skillful artisan formulas. Nowadays hair extensions have a wide range of locks, it is possible to obtain more than the typical Hair Extension service. Heather will give you the chance to realize new fancy color effects and fashionable hairstyle creations. Glendale Salonspa uses only SO.CAP. hair extensions.

SO.CAP. is the LEADER in Hair Extension pre-treated locks with keratin: • Making the extensions last a long time, • The locks are similar to the structure of one's own hair. It does absolutely not harm the integrity.

The pre-treated locks are so simple to use. The soldering action melts the keratin thus fusing it to the hair. The soldered parts are quite invisible and long-lasting. Our stylist, Heather, is thoroughly trained in the application process in addition to the removal process.

Congratulations to Renee on becoming a well sought after Educator!

Help Us Welcome Our New Esthetician!

Stefanie Corbett has been a Beauty Specialist for over six years. Stefanie's initial focus was make-up artistry; she worked with Pop Beauty London and Vincent Longo doing fashion shows and print work. As a freelance make-up artist, she will not only be able to create your perfect look, she'll be able to teach you to do the same!

As she evolved more into the role of Esthetician, she was drawn to Aveda. As an Aveda Spa Instructor, she found her passion in educating others. With training in energy work, diaphragmatic breathing, and Chakra balancing, Stefanie's services reflect the true Ayurvedic* concept.

Stefanie relocated less than two years ago to Southern California from the Midwest. In 2005 she was voted "Milwaukee's Best Brazilian Wax".

Glendale Salonspa is very excited to have Stefanie as a member of our growing team.

Please, come in and enjoy your spa experience with Stefanie

Ayurveda

Ayurveda means "the science of life".

The term Ayurveda combines two Sanskrit words--ayur, which means life, and veda, which means science or knowledge.

The principles of Ayurveda state that nothing exists in isolation, so that everything you interact with, your diet, family, work or relationships, has an effect on your health and wellbeing. One guiding principle of Ayurveda is that mind and body are connected and that the mind has a profound influence over our health and well-being.
